HEALTH CARE
FOUNDATION
FOR VENTURA COUNTY

Retirement Planning in 2026

What is Health Care Foundation for Ventura County?

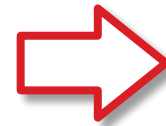

Health Care Foundation for Ventura County is a public benefit non-profit corporation, dedicated to strengthening **Ventura County Health Care Agency's** capacity to provide quality health care for all, with cost-effective and compassionate, professional care.

Funding to HCFVC comes from a variety of sources, including small gifts, large gifts, planned gifts, grants, **WeGive Employee, WeGive Retirees** and more.

HCFVC, alongside VCHCA leaders, **identifies areas where funding can be strategically allocated** to enhance patient outcomes.

VCHCA uses the funding to **purchase medical equipment and support programs** to optimize healthcare outcomes.

Free Quarterly Estate Planning & Trust Workshops Hosted by HCFVC

- Workshops **feature experts** from Ventura County Counsel, as well as other local trusted legal professionals.
- Learn the fundamentals of estate planning in a clear, approachable format, with guidance tailored to **help you take the right steps** for your future.
- Discover the costly consequences of not having an estate plan, as **probate fees can exceed \$50,000** for an average property in Ventura County.

Why Probate Can Be So Expensive

For a \$1 million estate in California in 2025, probate costs are set by Probate Code §§10800 and 10810, which establish **statutory fees for both the attorney and executor** based on the estate's gross value (before debts).

Sample Statutory Probate Fee Breakdown for a \$1 Million Estate:

- 4% on the first \$100,000 = **\$4,000**
- 3% on the next \$100,000 = **\$3,000**
- 2% on the next \$800,000 = **\$16,000**

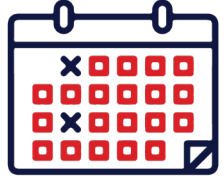

This Results in the Following Statutory Probate Fees:

- Attorney's Fee: **\$23,000**
- Executor's Fee: **\$23,000**
- **TOTAL PROBATE FEES: \$46,000**

Even a conservative estimate shows that a \$1 million estate, the average home value in Ventura County, may face \$40,000 to \$70,000 in probate fees and expenses.
